#### MANIFEST REVIEW FOR ANGELES CHEMICAL COMPANY

TO: Linda Ketellapper, U.S. Environmental Protection Agency, Region IX

**DATE:** June 2, 2010

**FROM**: Lynn Brimmer, SAIC Technical Lead

**CC:** Peter Seeger, SAIC Project Manager

Twohy Murray, SAIC Deputy Project Manger

**RE**: Angeles Chemical Company – 8915 Sorensen Ave., Santa Fe Springs, CA

Angeles Manifest Review

This memorandum summarizes research performed – at EPA's request – by Science Applications International Corporation ("SAIC") related to Freon 11 and Freon 113 use at the former Angeles Chemical Company ("Angeles") facility. In preparing this memorandum, the following evidentiary sources were reviewed:

• Angeles manifests dated July 15, 1994 to May 19, 2006

EPA requested a list of manifests for EPA Generator ID CAD063837520 from the Department of Toxic Substances Control ("DTSC"). A total of 52 manifests were identified by the DTSC. SAIC obtained electronic copies of 29 of the 52 manifests. The manifests covered the time period from July 15, 1994 to May 19, 2006. Neither Freon 11 nor Freon 113 was found on the manifests reviewed by SAIC.

## Angeles Chemical Company

# Department of Toxic Substances Control Hazardous Waste Manifests

July 15, 1994 – May 19, 2006

SAIC obtained these hazardous waste manifests from the Department of Toxic Substances Control and compiled them at the request of the United States Environmental Protection Agency.
